## Step 1: Sign up for the Online-Photoalbum

Visit http://www.my-siemens.com/mypictures and select the "**New User ?**" link in order to sign up and create your personal and private Online-Photoalbum.

## Step 2: During sign-up process – select your "Pixumname"

The "**Pixumname**" (in our screenshot below we use *SiemensSX1*, as an example) is, or can be, different from the previously chosen login-name at my-siemens. It is required in order to be able to upload pictures from your SX1 to your online photo album.

	SIEMENS Mobile	-
	photo albui	<mark>m</mark>
	welcome to My-Siemens-photoservice	
	To use the album service you need a Pixum-username. This username will be part of the address under which your online albums can be found, eg. http://my-siemens.pixum.com/members/harrison Your Pixum-username must consist of at least six characters (no special characters or spaces.) You can not change your username afterwards!

## Note:

During the sign-up process you will be asked for your **IMEI** number. The IMEI number is basically the serial number of your SX1. You can access this unique number by entering **\*#06#** on your SX1 while in the phone menu. Find a screenshot of the phone menu below.

∎ <b>&gt;&gt;&gt;</b> >>  2:45 ₽M	• <b>↔</b> <b>T-Mobile</b> Tu 25/11/20	• <b>——</b> <b>D</b> 203
- ST		
	$\wedge$	53
Blueto	oth Ne	w msg.

#### Step 3: Note your upload PIN

Alongside with your "Pixumname" you also need a PIN number (numeric passcode) in order to be able to upload pictures from your SX1 to your photo album. This PIN number is computer generated.

Having logged onto http://www.my-siemens.com/mypictures, select "My Account", and "**my personal profile**". There you will find your assigned **PIN**. In our example *"9077*". We advise to change the default PIN.

# Step 4: Edit the settings on your SX1

Assuming that your phone is already configured for GPRS internet access with your operator, and your phone contract includes GPRS service, you now have to enter your personal access data in your SX1.

Enter the Application menu, select **"Camera**", then **"Images**". Press the left softkey to access **"Options**". Scroll down and choose **"Settings**".

∄≫>>>	•4		₿ ≫>>>	•4		₩ >>>>>	+

JJ Music	Ø Contacts	Games				Update t Exit	humbnails
Options	$\Rightarrow$	Exit	Option	5	Back	Select	Cancel

Once in Settings, choose **"Image servers"**, then **"my-siemens pictures"**. Select your GPRS internet access point by pressing the joystick on **"Access point in use"** and selecting your appropriate one.

Options	Back	Options	Back	Options	<b>\</b>	Back

Next, enter your **User name**, which is your **"Pixumname**", then your **Password**, which is you **PIN**.

## Step 5: Upload your pictures from your SX1

#### Step 6: Enjoy!

Your family & friends can also access your online photo album (without being able to make any modifications to your account, of course).

Send them the URL to your photo album and share your pictures: http://www.my-siemens.pixum.com/members/*SiemensSX1* 

Substitute SiemensSX1 with your chosen "Pixumname".
